

Since the 2022-23 school year, the Issaquah Schools Foundation has granted over \$140,000 in funding to our high schools to support student-led clubs that create opportunities for future career paths. Each high school allocates the money based on funding needs and impact on student participants.

Clubs offer students the opportunity to learn teamwork, individual and group responsibility, and inclusivity. They can also reinforce lessons learned in class and help students discover passions. Clubs matter and Issaquah Schools Foundation donors help open the door to more opportunities for students.

Issaquah Schools Foundation Supported Club	2022-23	2023-24	2024-25	2025-26
